DEPARTMENT OF CIVIL ENGINEERING REPORT ON INDUSTRIAL VISIT

Department of Civil Engineering has organized Industrial Visit for our 2nd year & 3rd year Students, near Kundrathur “Sanmuga Ready-Mix Concrete plant” on 13/7/2018. Students were divided into 4 batches and the authorities had given a demonstration about batching, mixing, testing and transportation of Ready Mix Concrete (RMC). The plant operators also demonstrated about the material testing, hardened concrete testing and sampling.

Students got the exposure about the complete process of Ready Mix Concrete (RMC). They came across the conventional procedure of concrete making which is helpful for current academic subject and also suggested such kind of application oriented industrial visit in the near future.
