

July 20 2018

Department of Civil Engineering Report on one day seminar on Prefabricated structures and Prestressed Concrete Structures

One day seminar on **Prefabricated structures and Prestressed Concrete Structures** was organized on July 20th, 2018 by Department of Civil Engineering, PERI Institute of Technology. **Dr.J.Revathi**, Professor, Department of Civil Engineering, **B.S.Abdur Rahman** Crescent Institute of Science and Technology, Chennai and **Mr.Dilipan Bose**, CEO, Cityrene Chennai were invited as the keynote Speakers for the seminar.

Dr.R.Rajesh Guna, Associate Professor, Department of Civil Engineering welcomed the gathering. He gave a warm welcome to the honorable Chief Guest **Dr.J.Revathi**, Professor, Department of Civil Engineering, **B.S.Abdur Rahman** Crescent Institute of Science and Technology, Chennai, Faculties and all the students.

Mr. B. Magesh, Head, Department of Civil Engineering, PERI Institute of Technology felicitated the Chief Guest **Dr. J. Revathi**. He also gave a short speech about the seminar.

Dr.J.Revathi has presented on lecture Prestressed Concrete Structures including the practical applications. Her lecture was really a valuable gift to our final year students

Mr.M.Jayagopal, Assistant Professor, Department of Civil Engineering welcomed the Chief Guest **Mr.Dilipan Bose**, CEO, Cityrene Chennai, Faculties and all the students.

Mr. B. Magesh, Head, Department of Civil Engineering, PERI Institute of Technology felicitated the Chief Guest **Mr.Dilipan Bose**.

Mr. Dilipan Bose, gave detailed presentation on Precast Structures including the practical applications of GFRC panel construction. His lecture was an eye opener for Civil Engineering students regarding the modern construction techniques.
