

## Internal Quality Assurance System

The various quality assurance strategies initiated by the IQAC of the institution are as follows:

The IQAC focusses on the continuous improvement of the examination system for the students. A centralized examination cell conducts the assessment tests and model examination (Assessment test for a period of 90 minutes with 50 marks and model examination for a period of 3 hours with 100 marks). By the recommendations of the IQAC cell, submission of three sets of question paper per course was initiated to the staff handling the course. The examination cell in charge selects one of the three question papers at random and the same is given for the assessment test and model examination.

The management is very much concerned about the quality of the projects, the students undertake during pre-final and final year. The IQAC initiated the students of second, third and final year for doing Mini Projects. The project co-ordinators of various departments conduct three reviews for the Mini Project presentation and marks are awarded by the concerned guides and other faculties. Mini Project exhibition is conducted by the departments of Civil, CSE, ECE, EEE and Mechanical. The students are awarded with cash prize, merit certificates and participation certificates during the exhibition. This is an initiative taken by the IQAC for doing innovative quality projects and for the benefits of the students.

All the faculty members are encouraged and supported by IQAC to participate in Orientation programmes, Workshops, Seminars, Conferences and refresher courses related to the teacher – learning process and research. The R & D initiated faculties to publish research papers in SCI and Scopus indexed journals. The research papers published in journals are awarded with cash prize of ₹1000 to the faculties of various departments. Faculties are also supported and encouraged to participate in examination evaluation processes.

Regular meetings of IQAC are conducted under the IQAC chairman with the fixed agenda and suggestions are taken from all the members of IQAC for improvement and better implementation of curriculum.
